

## DEVICE DETAILS

NAME OF DEVICE	AUTOMATIC BLOOD PRESSURE MONITOR
ESTABLISHMENT NAME	REANNEQ SDN BHD
ROLE OF ESTABLISHMENT	AUTHORIZED REPRESENTATIVE
REGISTRATION NO	GB3302221-71460
BRAND NAME	OUSON+ CARE
MEDICAL DEVICE CATEGORY	MD 1301 - Monitoring devices of non-vital physiological parameters
DEVICE GROUPING TYPE	FAMILY
DEVICE DESCRIPTION	The purpose of the devices is used to mainly through recognition by the results between Micro-pressure caused by the beating of the heart, acting on the arterial wall of low pressure change and Arm pressure change value, to measuring systolic blood pressure and diastolic blood pressure in fuzzy memory way. It also through vibration of sensing pulse beat to record times of pulse beating and duration, then it will display result.
DEVICE INTENDED PURPOSE	The purpose of the devices is used to mainly through recognition by the results between Micro-pressure caused by the beating of the heart, acting on the arterial wall of low pressure change and Arm pressure change value, to measuring systolic blood pressure and diastolic blood pressure in fuzzy memory way. It also through vibration of sensing pulse beat to record times of pulse beating and duration, then it will display result.
VALIDITY DATE OF REGISTRATION	14/09/2021 - 13/09/2026

## LIST OF DEVICE

NO	NAME OF DEVICE	IDENTIFIER
1	Arm-type Electronic Blood Pressure Monitor	BSX556
2	Arm-type Electronic Blood Pressure Monitor	BSX558
